

[redacted] 25X1

25X1 CORONA - [redacted] Report to DD/S&T on events 22 Dec 1964

25X1 General Greer in coordination with D/NRO, is realigning COR management through the [redacted] Control Manual which will eventually eliminate the AP facility from all but vital mission support--including commo.

The computer support for [redacted] is being programmed in such a way as to be flexible enough to incorporate all subsequent satellite programs.

25X1

25X1 [redacted] position as Director, SOC, is deteriorating rapidly due primarily to the split between AF and CIA people on NRO staff with AF reps strongly anti-CIA. General Stewart is aware of this and has taken no action to correct it. General Stewart had observed that:

The Agency is too ambitious and is going to force a complete breakdown of the NRO as a result of which everything in NRO will go over to AF. This "coup" will culminate with AF withdrawing all support from the Agency. He predicted this would happen in a couple of months. He also said that CORONA problem could be solved if the Agency would assign [redacted] to the West Coast under General Greer.

25X1

This info was given to Wheelon who passed it to Gen. Carter.

---

CORONA - Advance Projects facility at LMSC

25X1 A visit by McMillan, [redacted] & a CIA group, to General Greer and the AP facility, 14-16 December 1964. [redacted] called to report. He was anxious over lack of depth of manpower at the AP facility. [redacted] presently subbing as replacement of the (1L/Col who was PNG'd by Greer?). Hqs team was treated courteously at Greer's but little doubt was left in any one's mind that it was the full intention and plan of the AF to take over the entire West Coast operation. Gen Greer had moved into direct contact with contractors under Agency contract and due to lack of CIA personnel, it is difficult to check such inroads.

25X1

25X1

NRO review(s) completed.

NRO BUDGETING

12 December 1964

Many items in the FY 1965 budget were unsatisfactory to CIA.

One, Eastman Kodak versus AFSPPL, Westover AFB. Terms of the 11 August 1962 agreement were being circumvented by cutting back funds for EKC center and putting the emphasis on Westover. This was put to the DNRO by letter of the DDCI around 12 December 1964.

A line item marked "Miscellaneous" of several million with no break-out or explanation of its make-up was questioned.
